

Joana Zimmer, Heart's Don't Lie

I see us standing at the crossroads
Upon our path
Weve seen it all
But always stood together
In good and bad
So whatever life might take us through
Remember what weve come to
oh yeah
Hearts dont lie
oh yeah
You were my candle
Through the darkness
When I would give in
And holding back
Was never your solution
In how to win
So if you believe well make it through
Whatever this will come to
Hearts dont lie
When you search your mind
And there are mountains left to climb
Hearts dont lie
When the rivers in front of you
Oh yeah
Hearts dont lie
When you need the truth
And the guts to pull you through
Hearts don't lie
Make the one voice you listen to
The voice inside of you
If you listen
Dont fight it
Just believe in the voice inside of you
Just running away wont make it better
Cause hearts dont lie
uh
Cause hearts dont lie
When you search your mind
And there are mountains left to climb
Hearts dont lie
When the rivers in front of you
Oh yeah
Hearts dont lie
When you need the truth
And the guts to pull you through
Hearts dont lie
Make the one voice you listen to
The voice inside of you
Cause hearts dont lie
