

Jodeci, Alone

[verse 1:]

Girl where is our child
Sent him to your mother's
For a while
All your friends are gone
You know i sent them home
Girl i live for you
So i don't give a fuck about the news
So please turn off the t.v.
And if you give a damn about me
I wanna hear you moan

[Chorus:]

Let's be alone
I wanna hear you moan
Let's be alone
So we can get it on
Let's be alone

[Verse 2:]

Better than you and me
Better than a damn movie
Our love is so much fun
Let's do some freaky shit
And then i'll make you cum
Nothing compares to us
I love we have so much trust
Tell me can you see
I was made for you and you for me
I wanna hear you moan
