

# Jodeci, What About Us

Come and talk to me  
Can i talk to you  
Come and talk to me  
K-ci  
Yeah, we can do this  
I wanna love you [x8]  
Girl i'm reaching out my hand  
Trying to make you understand  
That you don't have to be alone  
Cause i wanna be your man  
Girl i need you in my life  
Just wanna live right by your side  
So girl i won't be satisfied  
Until you give this love a try

[Chorus:]

I'm in need of love  
And baby you're in need of love  
So what about us  
On and on and on til the break of dawn, and it's on  
I'm in need of love  
And baby you're in need of love  
So what about us  
On and on and on til the break of dawn, and it's on

Can you feel, can you feel, can you feel me  
I can feel you lady

Satisfaction guarenteed  
If you come and get with me  
Girl i can get down on my knees  
So let me please let me do you lady  
Cause i know just what you need  
I need your love  
I need your love  
Girl listen to me

I'm in need of love  
And baby you're in need of love  
So what about us  
On and on and on til the break of dawn, and it's on

Shoobie doo-wop shoobie doo-wop i wanna love you [x5]

I'm in need of love  
And baby you're in need of love  
So what about us  
On and on and on til the break of dawn, and it's on [x3]

I wanna love you  
I wanna love you

I'm in need of love  
And baby you're in need of love  
So what about us  
On and on and on til the break of dawn, and it's on [repeat until fade]
