

# Jodi Benson, Promise

Every evening  
Brings an ending  
Every day becomes a legacy

Every sunset  
Leads to morning  
With the promise of opportunity

We can reach for the stars we find along the way  
Dreaming as we learn to love everyday

Promise  
You will take my hand  
As tomorrow comes  
We'll go on

We'll go on  
Growing closer through the years  
Moving on  
Through the good times and the tears  
Ever on  
Another thousand circles 'round the sun  
If two can be as one  
We'll go on

There is music  
If you listen  
In the rhythm of each breath we take

Destinations  
Undiscovered  
Revelations from every choice we make

And I know  
There are diamonds dancin' in the sky  
All we have to do  
Is open our eyes

Promise  
We'll walk side by side  
As a new day dawns  
We'll go on

We'll go on  
Growing closer through the years  
Moving on  
Through the good times and the tears  
Ever on  
Another thousand circles 'round the sun  
A new life has begun  
The two of us as one  
We'll go on

Moving on  
Through the good times and the tears  
Ever on  
Another thousand circles 'round the sun  
A new life has begun  
When two of us are one  
And we live to keep the promise

We'll go on

Ever on

We'll go on
