

# Jodi Benson, Sound Of Forever-Even Stevens

I think it's fine watchin it all go by  
Stop and worry if you'll know when  
The things they start and ask you why  
and when it stops, you'll find a need for an end

The good times roll so let them go now  
stand back and watch them roll now  
the sound of forever is on the road

Flyin high, out of mind for now  
takin a walk around this town  
thought I knew, forgot somehow  
and when it stops, I'll find a need for an end

The good times roll so let them go now  
stand back and watch them roll now  
the sound of forever is on the road
