

# Jody Watley, I Want You

When the night falls, surrounds us gently  
with a sexy atmosphere  
We'll light some candles, play some music  
ooh I just want feel that intimacy

Nobody but you and I  
Loving and kissing so passionately  
Sharing our feelings, just caress my body  
ooh baby let me whisper in your ear

CHORUS:

I want your love  
I'll have your love  
I need your love  
I want your love  
(repeat)

Turn the lights down low  
and baby come close  
I wanna give it to you  
like you've never had it before

Unplug the phone  
Don't disturb this groove  
I just want to concentrate on you

Nobody but you and I  
Just loving and kissing  
so passionately  
Sharing our feelings,  
just caress my body  
ooh baby let me whisper in your ear

CHORUS:

I want your love  
I'll have your love  
I need your love  
I want your love  
(repeat)
