

# Joe Budden, Exxxes

[Joe Budden talking]

You look familiar

I swear seen you some where before are you sure

Are you sure we never meet

Naw I'm not using it for some cheap pick up line

I really think you look familiar

Look she be calling my name

Screaming real loud I would think she's pain

Nigga's tried to tell me her head was insane

Everything she do it takes a toll on my brain

It seems a little strange but she be calling my name

Screaming real loud I would think she's pain

Nigga's tried to tell me her head was insane

Everything she do it takes a toll on my brain

It seems a little strange but she be calling my

[Verse 1]

She don't gotta a name

So for now lets call her Ashley

Had her gym close on

Seen her when she pass me

Met her up in Exxon

Body was the nicest

Cursing up a storm

She complaining bout the prices

She just left Toronto for Jerz brough a condo

Know everything about her though we never had a convo

Pops wasn't around much

Her mother raised her

Got so much in common that

I don't like to face her

Her parents are dope heads

She dropped out of school to

Got the same tat's at me and I find that unusual

That I smoke cigs stay they're bad for my own health

Said I'll never love me cause I don't love my own self

Gave me the ass the first night and I gladly tossed it

The best part was I didn't even have to ask for it

Her period don't ever come

And when I dick her down she always run

[Chorus]

She be calling my name

Screaming real loud I would think she's pain

Nigga's tried to tell me her head was insane

Everything she do it takes a toll on my brain

It seems a little strange but she be calling my name

Screaming real loud I would think she's pain

Nigga's tried to tell me her head was insane

Everything she do it takes a toll on my brain

It seems a little strange but she be calling my

[Verse 2]

She like to scream so the neighbor's might hear her

For some reason like get in front of the mirror

Let me make it clearer

She be making strange request

And I'm not talking bout just pulling on her hair oooooonn

She be saying choke me like I lost all respect

And every time I do marks show up on my neck

She say punch

her smack her

Like I'm an attacker

I say you a fool

I say just do what I asked ya

I be going slow until she tell me do it faster

Every time I'm out with her these nigga just harass her

I don't understand it  
She so unattractive  
Shorty looking terrible  
Plus she come with baggage  
I tap it  
Though she below my average it deceives me  
She be talking marriage saying she'll never leave me  
I say I'm gonna bounce  
But I say I don't believe me  
She fucks me every time she sees me

[Chorus]  
She be calling my name  
Screaming real loud I would think she's pain  
Nigga's tried to tell me her head was insane  
Everything she do it takes a toll on my brain  
It seems a little strange but she be calling my name  
Screaming real loud I would think she's pain  
Nigga's tried to tell me her head was insane  
Everything she do it takes a toll on my brain  
It seems a little strange but she be calling my

[Verse 3]  
I be wanting ta  
Strangle her  
Throw her off the balcony  
Dangle her  
Mangle her  
How long have I carried this anger for  
How come when we argue  
We have to get physical  
We crucial conflict  
She ends up in critical  
Habitual  
Happens daily  
It's our ritual  
But show your face bitch stop being invisible  
Is it just my mental  
Is she just a symbol  
There for me to look at everything that I resemble  
Sometimes during sex I blurt another name  
Do that mean I look at me and be ashamed  
I'm cheating on me  
With a hottie  
with a body  
Who so happen to embody  
Everything I so happen to not be  
I be tryna leave her  
But then I get lenient  
And since I'm in this room alone  
She become convenient  
Then we lie together  
Cry together  
I swear I hope we die together

[Chorus]  
She be calling my name  
Screaming real loud I would think she's pain  
Nigga's tried to tell me her head was insane  
Everything she do it takes a toll on my brain  
It seems a little strange but she be calling my name  
Screaming real loud I would think she's pain  
Nigga's tried to tell me her head was insane  
Everything she do it takes a toll on my brain  
It seems a little strange but she be calling my

[Verse 4]  
I finally grew the balls to tell shorty we should separate  
Save your breathe nothing you can do to make me hesitate

There no room for me and you to grow  
Don't love me then leave me alone do both  
Then she apologize for anything that she did  
Said with out me she can't think of no reason to live  
Said she'll miss getting piped down  
The she picked up a shank  
I to tell the crazy bitch to put the knife down  
Crying  
I shadow on her face  
Filthy  
Feel me if you kill you  
It's gonna kill me  
Really  
She said you neglect me  
I said we the same  
So whatever you do it's gone affect me  
You know I can't let it be  
So if we have to stay together just to co-exist then so it is  
She said I loved you then hugged me  
Took her pants off and proceeded to fuck me  
[Chorus]  
She be calling my name  
Screaming real loud I would think she's pain  
Nigga's tried to tell me her head was insane  
Everything she do it takes a toll on my brain  
It seems a little strange but she be calling my name  
Screaming real loud I would think she's pain  
Nigga's tried to tell me her head was insane  
Everything she do it takes a toll on my brain  
It seems a little strange but she be calling my
