

# Joe Diffie, She Loves Me

She's more than I could ever ask for  
More than I deserve  
Why am I the lucky one  
Who means the world to her  
She's the best of everything  
Sometimes I think it's all a dream

She loves me  
It's like my heart just can't believe  
She loves me  
She could have most anyone she pleased  
But she loves me

She's the one who takes my hand and  
Takes my breath away  
Takes me where I want to go  
And where I want to stay  
She turns to me and says my name  
And I feel things I can't explain

She loves me  
It's like my heart just can't believe  
She loves me  
She could have most anyone she pleased  
But she loves me

She's the best of everything  
Sometimes I think it's all a dream

She loves me  
It's like my heart just can't believe  
She loves me  
She could have most anyone she pleased  
But she loves me
