

# Joe Purdy, Lady Lonesome

Well it's nearly been a week  
Since you saw the back of me  
Walkin' out your door and  
I don't regret it, when I left  
Cause this will surely work out for the best, yeah

Cause I don't need no beauty queen  
And I don't want your Hollywood scene  
Tonight there's a party but you can't come  
We'll be dancing all night long  
Just me and Lady Lonesome

Well I'll admit that I miss you just a little bit but  
It's still better off this way, yeah  
You can't put me in doubt  
I won't make you feel underpaid

And I don't need no beauty queen  
And I don't want your Hollywood scene  
Tonight there's a party but you can't come  
We'll be drinking all night long  
Just me and Lady Lonesome

Don't you get yourself mad at me  
For walking out your door  
Cause if I gave you everything  
You would only want more

And I don't need no beauty queen  
And I don't want you nagging me  
And I guess I'll be moving on  
We'll be travelling all night long  
Just me and Lady Lonesome
