

Joe, Question Of Time

It makes me high

I've been waiting this long,
I've been doing my own thing,
Somethin is keepin me strong
But now it feels like i'm slipping
Down this emptiness will not stop
its bringing me down
Loneliness is falling when you're not around

Chorus

Makes me weak
It makes me high
Lovin you is only a question of time
(Repeat)

I've been waiting this long,
I've been doing my own thing,
Somethin is keepin me strong
But now it feels like i'm slipping
Down this emptiness will not stop
It's bringing me down
Loneliness is falling when you're not around

Repeat Chorus

This Love Is just a question of time
just a question of time
just a question of time
this love is just a question of time
this love, this love
is just a question of time

I've been waiting this long
