

# Joey Albert, Angel

Like a sunshine on a rainy day  
Blue skies to chase away the gray  
You walked into my life and happiness came  
&#160;I'll never be the same

You smile and everything's okay  
You speak and then the music plays  
All of a sudden, little things mean so much  
Even than just a touch

## CHORUS

(&#160;Cause) You're my angel  
You touched my life and made me new  
The world's a better place with you  
Angel, I love you

You're there to catch me when I fall  
You stayed and watched me through it all  
There is a promise in my heart that I hear  
Only when you're near
