

Joey Ramone, Like A Drug I Never Did Before

My head gonna blow brains all over the floor
Pressure like I never felt it before
It's like a drug I never did before a drug I never done
A drug I never did before

A little edgy yeah I like it that way
A bit more relaxed, much better that way
Like a drug I never did before a drug I never done
A drug I never did before this ain't fun, no

It's like a drug
It's like a drug
It's like a drug
Like a drug I never did before a drug I never done
A drug I never did before oh what fun

Hanging in the lobby of the Chelsea Hotel
On a wild psychedelic night, pretty wild
Like a drug I never did before a drug I never done
A drug I never did before this ain't fun

Demons swirling in an OCD pond
My body is vibrating I am gone gone gone
