

JÓGA, Hero

I mess up
I give up
I fall down
To my knees
I need to be save you
The one who will leave you
I mess up
I give up
I fall down
To my knees
I need to be save you
The one who will leave you

You want me to be your hero
I can grow ... night feel
We can share this space together
I love the way you're hurting me

You want me to be your hero
I can grow ... night feel
We can share this space together
I love the way you're hurting me
