

John Berry, I Will, If You Will

(John Jarvis/Randy Goodrum)

Once upon a time
People fell in love &&& they stayed in love
It never crossed their mind
Not to see it through when they said I do
This modern world changes so fast
Hearts break apart like they're made out of glass
It's getting hard to believe in love that can last
I will if you will

Once in every life
Someone comes along like you've come along
And it would be so nice
If this happiness could go on and on
But in this modern world troubles come by
People let go the first tear they cry
Someone has to be strong to keep love alive
I will if you will

But in this modern world troubles come by
People let go the first tear they cry
Someone has to be strong for love to survive
I will if you will
Let's give it a try
Let's do it or die
I will if you will
