

# John Butler Trio, Sometimes

If you just want to know something.  
All you got to do is ask me.  
Cause though the sunsets all around us  
The truth is often plain to see.

I know you been going through some hard times  
Yes I have been there too before  
And thought the truth is sometimes hard to hear  
It's harder still to ignore

It doesn't gotta be this way  
You don't gotta worry about what everybody might say  
You just gotta follow your heart.  
Right now yeah man right from the start.

I know we don't always see eye to eye  
I guess it's different things that were trying to find  
But if we can't look each other stone cold in the face  
Yes you know we might as well be blind.

Does not mean one of us is wrong man  
Does not mean one of us is right  
Does not mean yeah we just get along  
Just because we don't fight

I be up sometimes, down sometimes  
We're often in between but mostly in the middle  
You be up sometimes, your down sometimes  
We're often in between but mostly in the middle  
I'm up sometimes, your down sometimes  
We're often in between but mostly in the middle  
You're up sometimes, I'm down sometimes  
We're often in between but mostly in the middle  
We be up sometimes, we're down sometimes  
We're often in between but mostly in the middle
