

John Denver, Elipse

The sun is slowly fading in the western sky
Sometimes it takes forever the day to end
Sometimes it takes a lifetime
Sometimes I think I'll never see the sun again
In the east a shaded moon is hanging lazily
I do believe I saw the old man smile
I do believe I did
I do believe that he's been laughing all the while

(chorus)

I think it's kind of interesting
The way things get to be
The way the people work with their machines
Serenity is a long time coming to me
Fact I don't believe I know what it means
There's a heavy smog between me and my mountains
It's enough to make a grown man sit and cry
It's Enough to make you wonder
It's enough to make the world roll up and die

(chorus)

I think it's kind of interesting
The way things get to be
The way the people work with their machines
Serenity is a long time coming to me
Fact I don't believe I know what it means anymore
The sun is slowly fading in the western sky
Sometimes it takes forever the day to end
Sometimes it takes a lifetime
Sometimes I think I'll never see the sun again
