

John Hiatt, Something Wild

Sometimes I dont even move a muscle

Baby when you lie awake at night

I think I've got nine lives in these corpuscles

Girl, you know sometimes I dont think right

I hear voices in the hall

I wake up and its nothing at all

A hungry wolf, or an agry child

Or something wild

Something wild

Something wild- tell me love is

Something wild- tell me love is

Its not as if we could think that things were one way

And they would all just be that way right now

When I was a kid I thought that someday

I could tame this lion heart, some way, somehow

Now Im hungry for the love

That doesnt know what its dreamin' of

Raging for the meek and mild

Like something wild

Something wild

Something wild- tell me love is

Something wild- tell me love is

Theres a hole where the wind blows through

And some curtains hung

But I cant hid a thing from you

You know where I come from

Well I tried getting there under my own steam
'Til my very last chance was shot
Now you're under my skin like a submarine
I can feel you in my veins running hot

Now if its more than a new pair of jeans, a new car, some pocket money
And a place to go
Then we better get up and scream at the top of our lungs like it
Was gonna die if we didnt make it so

I hear voices in the hall
I wake up and it's nothing at all
An angry wolf, or a hungry child

Or something wild
Something wild
Something wild- tell me love is
Something wild- tell me love is
Something wild
Something wild
Something wild
