

# John Lennon & Yoko Ono, O'Sanity

It's only sane to be insane  
Psychotic builds a castle  
And neurotic lives in it  
I don't know what to do with my sanity  
When the world's at the verge of calamity

O' sanity, o' sanity  
What am I to do with you?  
Drink up, shoot up, anything you please  
But you're always standing behind me like a devil in hell

O' sanity, o' sanity  
Why don't you let me go?  
Let go, let go, cut it out
