## John Mayer, Not Myself

Suppose I said I am on my best behavior And there are times I lose my worried mind

Would you want me when I'm not myself? Wait it out while I am someone else?

Suppose I said Colors change for no good reason And words will go From poetry to prose

Would you want me when I'm not myself? Wait it out while I am someone else?

And I, in time, will come around I always do for you

Suppose I said You're my saving grace?
