

# John Me, Love Is My Drug

Love is my drug, is my medicine.  
Stay with me honey, stay with me honey, stay with me  
When you are feeling tired  
I'll lay there with you  
When you get up early in the morning  
I'll get up with you  
If you have a craving  
I'll get it for you  
If you wanna take a ride all by yourself  
I'll be waiting for you  
Love is my drug, is my medicine  
Stay with me honey, stay with me honey, stay with me  
Love is my drug, she's my heroin  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me  
When you feeling fired up  
I'll fire with you  
If you had to lie a little  
I'll let it be true  
When you get low I'll, get lower than you  
When you've had enough of had it  
much more than you knew  
Love is my drug, is my medicine  
Stay with me honey, stay with me honey, stay with me  
Love is my drug, she's my heroin  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me  
Stay with me honey, stay with me honey, stay with me
