

# John Mellencamp, Sugar Marie

Well I'm all gassed up  
The Car is waitin' outside  
I got three more hours on this loser's job  
And then I'll be ready to ride  
I got this cowboy comin' with me  
This guy's name is Jeffrey Jack  
He can shoot the eyes out of a pool ball  
He can get the young girls into the sack  
We'll go down to the dance hall  
Locals will be kickin' up their heels  
They'll be drinkin' tequila sunrises  
Until the morning light fills up the window sills

[Chorus:]

And then I'll be with Sugar Marie  
She's the only girl I know that can make me forget about me  
Come on and dance with me Sugar Marie  
She don't ask me any questions when it's time to leave  
She works down at the truck stop  
Where she polishes the spoons  
She gets colas and burgers for the boys  
On those hot summer afternoons  
She's got this girlfriend named Linda  
Linda's got a tattoo that says Christ  
Well she ain't half bad to talk to  
And I reckon she looks pretty nice  
We'll drive down to the dance hall  
Sittin' there waitin' on me  
Jesus, you know it feels pretty good  
And sometimes I need some good ole company

[Chorus]

She don't ask any questions  
And she don't flirt with the other boys  
She belongs to me Sugar Marie

I never thought I needed no one  
I can make a big enough mess myself  
Oh, but when I finally found someone  
She made me respect myself  
Dance for me Sugar Marie

[Chorus]

Hey girl I wish we could tear the heart  
Out of this old town tonight
