

# John Waite, For Your Love

Thinking about you tonight  
In a 3-D hotel room in Rome  
Chainsmoking American cigarettes  
And keeping my ear to the phone  
Through the blinds to the street  
My mind wanders  
To the nights when I had you alone  
Reality becomes science fiction  
And my heart's in the war zone  
If you won't free me  
Riding in this rodeo  
Juliet love tonight  
With her vicious Romeo  
For your love  
I'd give you anything  
The stars and the moon  
And the sky above  
Existing for you alone  
And the moments we steal from each other  
A millionaire I become  
As you cry out my name  
I'm your lover  
I was travelling light  
As I checked into  
This heartbreak chateau  
And there's no place for me in the sun  
That doesn't cast a shadow  
Whoa  
Tower free me  
From riding in this rodeo  
Juliet's loves tonight  
With a vicious Romeo  
For your love  
I'd give you anything (for your love)  
The stars and the moon  
And the sky above (for your love)  
You say I'm your world  
Well you are my universe (for your love)  
You say that you want me  
To get love's curse  
I was traveling light  
When I checked into this heartbreak chateau  
And there's no place for me in the sun  
That doesn't cast a shadow  
For your love  
I'd give you anything (for your love)  
The moon and the stars  
And the sky above (for your love)  
You say I'm your world  
I say are my universe (for your love)  
You say that you want me  
All you get's love curse  
(For your love)  
Give you anything (for your love)  
I give you anything (for your love)  
Shirt off my back (for your love)  
A million bucks (for your love)  
Cause I want you (for your love)  
Tonight (for your love)  
I want you (for your love)  
Tonight (for your love)  
I want you (for your love)  
Tonight  
I want you tonight
