

John Waite, Valentine

Inside these moments waiting
Beneath the windows of
The house of love
Like romeo to juliet above
The lights out on the freeway
They lead me back to you
For always and forever now
I'll be with you
Cause you know that I've come here for a reason
Tell me that there's something to this rhyme
Listen to your heart
Tell me what you want now
But don't let me be denied
And be my valentine
Be mine
The dragonfly at midnight
The jasmin of your room
The candle light inside our eyes
The dawn will come too soon
I come to you as nothing now

But everything I am
I'm burning for you constantly
Just let me be your man
Cause you know that I've come here for a reason
Tell me that there's something to this rhyme
Listen to your heart
Tell me what you want now
But don't let me be denied
And be my valentine
Be mine
Valentine
Cause you know that I've come here for a reason
Tell me that there's something to this rhyme
Listen to your heart
And tell me what you want now
But don't let me be denied
And be my valentine
Be mine
Be my valentine
Be mine
