## John Waite, Valentine

Inside these moments waiting Beneath the windows of The house of love Like romeo to juliet above The lights out on the freeway They lead me back to you For always and forever now I'll be with you Cause you know that I've come here for a reason Tell me that there's something to this rhyme Listen to your heart Tell me what you want now But don't let me be denied And be my valentine Be mine The dragonfly at midnight The jasmin of your room The candle light inside our eyes The dawn will come too soon I come to you as nothing now

But everything I am I'm burning for you constantly Just let me be your man Cause you know that I've come here for a reason Tell me that there's something to this rhyme Listen to your heart Tell me what you want now But don't let me be denied And be my valentine Be mine Valentine Cause you know that I've come here for a reason Tell me that there's something to this rhyme Listen to your heart And tell me what you want now But don't let me be denied And be my valentine Be mine Be my valentine Be mine
