

Johnny Bravo, Magda Banasiuk, Monya, Save Me

I am so confuse
Don't know what to do
Like nobody
Please, rewind for this numb
I want to make things go right
Coz a long ago
I was full of lies
Standing on the ground like nobody
Coz you're my guy
Always feel me right
Thought the world of lies

I feel stronger every day
When you're standing in my way
So I call you
So I call you
So I call you

Come and save me!
Come and save me!
What if I dare
What's be there

I just love you
I just love you boy
I just love you, you, you, boy

All I want from you
It's just to be my cue
You've got to take this pain away
Because my soul is bruised
You can hide the scars
Make me have ... right now
I believe in you
Whatever ... defines
Give my 7 lives
But there's no reason I can ..
Let me die
Ypu can break my lies
Make me have ... right now

I feel stronger every day
When you're standing in my way
So I call you
So I call you
So I call you

Come and save me!
Come and save me!
What if I dare
What's be there

I just love you
I just love you boy
I just love you, you, you, boy
