

# Johnny Cash, Don't You Think It's Come Our Time

I have picked wild roses  
Far into september  
But I had no one to give the flowers to  
I needed a celebration  
A September coronation  
And I admitted to myself I needed you

[Verse 2: June Carter]

I've watched the gentle winds change  
The colors shades of meadows  
Ive seen the dew on flowers that had no name  
But I let my vase stay empty like my lonely empty heart  
Picking flowers for yourself is not the same

[Chorus]

Both: don't you think its come our time to be together  
Lets gather up our scattered words of love and make them rhyme  
Johnny: Let's go pick some flowers and fill our empty vases  
Both: Don't you think its come out time

[Verse 3]

Johnny: would you take this small bouquet that leaves a fragrance on my fingers  
And a feeling that your love is close at hand  
June: thank you for the flowers, now lets walk through the meadows  
Through the brook where our demands caress the sand
