

Johnny Cash, Lead Me Father

When my hands are tired and my step is slow
Walk beside me and give me the strenght to go
Fill my face with your courage so defeat won't show
Pick me up when I stumble so the world won't know
Lead me Father with the staff of life give me the strenght for a song
That the words I sing might more strenght bring
To help some poor troubled weary worker along
When my way is light but I still can see
With a strong hand strike out the blindness in me
Show me work that I should carry on for Thee
Make my way straight and narrow like you wanted to be
Lead me Father...
