

# Johnny Clegg & Savuka, New Earth

The watchman's fire is burning but the watchman has gone  
The singer knows the words but she can't recall the song  
The passenger is waiting but the train won't come  
The telephone is ringing but to answer no-one

CHORUS:

I'll meet you on new earth, new earth  
Standing on common ground  
New earth, new earth  
Where the lost will be found

There's too much double talk and double think and double dealing  
Too many people wearing chains in the name of freedom  
Don't think I can wake up to this anymore  
In my heart I know what I am looking for

CHORUS

You say I must wait for tomorrow  
But I need it today  
I don't need your pity or your sorrow  
Just give what you say  
Give me what you say  
Give me what you say...

CHORUS:

I'll meet you on new earth...  
Brother get ready  
Sister get ready
