

Johnny O'Keefe, One Of Those Nights

How many people can stand up and say
They had enough of rock'n'roll music today
If you didn't come to boogie, you didn't come to ball
You got no business being here at all

'cause it's gonna be one of those nights, got to be one of those nights
People i'm-a giving you a warning, we're all going to jail in the morning
Grab your mamma and hold her tight, got to be one of those nights

Well i just blew in for a one night stand
Thinking the business with the travelling band
Drummer played the rhythm, pass the wine
Everybody here gonna have a god time
Now boogy

Well, it's gonna be one of those nights, got to be one of those nights
People i'm-a giving you a warning, we're all going to jail in the morning
Grab your mamma and hold on tight, got to be one of those nights

Well it's gonna be one of those nights, got to be one of those nights
People i'm-a giving you a warning, we're all going to jail in the morning
Grab your mamma and hold her tight, got to be one of those nights

Well all gods children deserve some fun
Every runaway daughter, every mother's son
Throw away your troubles, throw away your blues
The boogie is the natural thing to do
Now boogie

Well it's gonna be one of those nights, got to be one of those nights
People i'm-a giving you a warning, we're all going to jail in the morning
Grab your mamma and hold on tight, got to be one of those nights
Grab your mamma and hold on tight, got to be one of those nights

Do, do-do, do-do, do-do
