

Johnny Orlando, July

Uh

Back for the week or back for the day

If you can find the words to tell me to stay right now

We're good for a week or at least a day

At least I came

You look the same

I feel the same, so

Let's put on our show

It's been way too long

I wanna know

If they stayed in love

Maybe they don't (no, no, no, no)

Been dreaming of July again

Been writing texts that I can never send

I've been thinking about another chance (one more chance yeah)

I'm falling for the way you loved me then

So call me when your head is right

I-I-I feel your presence late at night

I've been thinking about another chance

I'm falling for the way you loved me then (way you loved me then)

There's too much to say

Talking about fate

I know there's still love under the haze

It's late in December, last day of tour

And I can't remember who ended the call

You know I could spend hours sitting watching you move

I'm still here, I'm still here

Let's put on our show

It's been way too long

I wanna know

If they stayed in love

Maybe they don't (no, no)

Been dreaming of July again

Been writing texts that I can never send

I've been thinking about another chance (one more chance yeah)

I'm falling for the way you loved me then

So call me when your head is right (call me when your head is right)

I-I-I feel your presence late at night

I've been thinking about another chance

I'm falling for the way you loved me then (way you loved me then)

I'm dreaming of July again (I'm dreaming, I'm dreaming)

I'm dreaming of July again

I'm dreaming of July again

I'm dreaming

Yeah, I'm dreaming
