

Johnny Tillotson, That's Love

Love is cattle in the clover sun shining over head

That's love

Love is children eatin' candy and a shell still wet and sandy

That's love

And love is when the lover waits and waits and waits and waits and waits

That's love that's love

Love is flowers grown and pretty both large and little bitty

That's love

Love is grandy slowly rocking knittin' some grand kiddy's stockin'

That's love

Love is just a tender touch of the hand that mean so much

And that's love that's love

Love is just a state of mind that only those in love can find

That's love that's love
