

# Johnossi, Break Into School (Late At Night)

Twelve o'clock break for lunch, elementary school  
when you sneak in to take back what's yours  
noone's around, grab the key from the wall  
adrenalin as you drop 'em in your pocket  
such a great plan, now it's finally the time  
gonna break into school late at night  
but I know what you found, corridors  
and old wooden doors, so empty in school late at night

Yeah I know what you found, nothing  
I know what you found, you ain't find nothing  
I know what you found, you found nothing  
I know what you found, you ain't find nothing at all

Shadows from the past get stuck on the wall  
and tell a story that's tempting but tragic  
he keeps drooling around until you make up your mind  
wanna know about the panic in the attic  
it's where a 14 year old girl, tied her up around the neck  
she broke into school late at night  
and they say you can see her through the window  
from the schoolyard outside  
dangling from her rope late at night

I know what she found, nothing  
I know what she found, she didn't find nothing  
Yeah I know what she found, she found nothing  
I know what she found, she didn't find nothing

but she broke into school late at night  
she scored the name in with a knife  
in the wall in the attic, although she had doubts  
she made a decision in school late at night  
and me, I'm ready, steady, go  
then I break through the glass, put a smile on my face  
and I fall through the alley tonight  
and I know what they read tomorrow, a local headline of sorrow  
a great loss there in school late at night

But I know what they thought I was worth, nothing  
I know what I'm worth, I ain't worth nothing  
Yeah I know what they thought I was worth, nothing  
I know what I'm worth, I ain't worth nothing  
Yeah I know what they thought I was worth, nothing  
I know what I'm worth, I ain't worth nothing  
I know what they thought I was worth, nothing  
I know what I'm worth, I ain't worth nothing

I wanna burn down the school late at night  
Yeah, I wanna burn with the school late at night  
I needed somebody to show me there's life  
or at least somebody to hold me at night  
but I guess I ain't worth nothing
