

Johnossi, Give Me The Knife

Every time I see them standing there
Something strikes my being
You can do it

Lazy eyes, the grin of confidence
Wanna see the bleeding
You can do it

Go through every single need
All this time I've not been free

Give me the knife now,
give me the knife now,
give me the knife now,
give me the knife

Doing this together
Falling to the floor
Feels like now or never
Open up the door
Such a great endeavor
Drift on to the core
Floating like a feather
Through an open sore

There you lie and wait so patiently
Longing for the freeing
Open mind we move so carefully
Wanna see the bleeding

Go through every single need
All this time I've not been free

Doing this together
Falling to the floor
Feels like now or never
Open up the door
Such a great endeavor
Drift on to the core
Floating like a feather
Through an open sore

Go through every single need
All this time I've not been free
