

# Johnta Austin, Call You Tonight

Mmmm... Mmmmm... Mmmmmm....

[Vers:1]

My stars must be your light tonight  
I believe this must have a meaning  
Lightning had to strike tonight  
Cause the two of us are finally meeting  
In this place at this time  
And I feel safe when I look in your eyes  
I feel like I know you from another life  
And it makes me wish I wasn't so pressed by time

[Chorus:]

I can't catch my breathe  
Cause you take it away  
The best writer in town  
Could not find words to say  
How there are so many things  
I wanna get to know  
I wish that I could stay  
But I gotta go  
So I'mma call you tonight  
I will baby  
Just as soon as I get time alone  
I'mma call you tonight  
I will baby  
Just as soon as I get home

[Vers:2]

That's not the way it goes in life  
You get busy when you just don't know  
There's never enough time day or night  
You have to make it so baby I'm gonna  
Make away to connect  
Cause your face is one I can't forget  
I feel like I know you from another life  
And it makes me wish I wasn't so pressed by time

[Chorus:]

I can't catch my breathe  
Cause you take it away  
The best writer in town  
Could not find words to say  
How there are so many things  
I wanna get to know  
I wish that I could stay  
But I gotta go  
So I'mma call you tonight  
I will baby  
Just as soon as I get time alone  
I'mma call you tonight  
I will baby  
Just as soon as I get home

[Hook:]

Destiny  
I believe in it  
Meant to be  
Don't you see it's possible that this kind of magic  
Anything can happen  
And if you wanna know  
Then you'll stay by the phone

[Chorus:]

Ohhhhhh  
I can't catch my breathe  
Cause you take it away  
The best writer in town  
Could not find words to say  
How there are so many things

I wanna get to know  
I wish that I could stay  
But I gotta go  
So I'mma call you tonight  
I will baby  
Just as soon as I get time alone  
I'mma call you tonight  
I will baby  
Just as soon as I get home  
I'mma call you tonight  
I will baby  
Just as soon as I get home
