

# Johnta Austin, Come Clean

[Verse 1:]

Girl I'm a need you to listen  
I'm a need all your attention now, right now,  
I'm coming at you with a proposition,  
I wanna find out if you know how, if you know how,  
To know right from wrong but knowing wrong sometimes feels right,  
To keep a secret and hold onto it for life,  
Yes I'm talkn about what me and you did last night,  
If your man knew, what if my girl knew, there are only two things we can do,

[Chorus:]

Come clean and run away,  
So we can do what we did last night every day,  
You you wanna come clean and run away,  
You tell your man I'll tell my girl today,  
Can we come clean and,  
Come clean and,  
Come clean this love is killing me

[Verse 2:]

I think my girl knows something,  
Cause she been askin questions,  
Like would I ever cheat?  
And your man gotta be suspicious,  
When you get dressed up for no reason,  
He don't know it's for me  
But I bet he knows it's someone else  
Cause when your with him he can look at you and tell,  
And as for me it's just a matter of time,  
Before I can't take it no more, when it's gonna get on,  
Baby girl I think they should know

[Chorus:]

Come clean and run away,  
So we can do what we did last night every day,  
You you wanna come clean and run away,  
You tell your man I'll tell my girl today,  
Can we come clean and,  
Come clean and,  
Come clean this love is killing me

[Talking:]

Look I can't keep doing this,  
Gettin home, turning my phone off before I walk in the door, making sure I gotta change my shirt so  
Look let's just come clean...  
It's gonna hurt but we gotta do it...

[Chorus:]

Come clean and run away,  
So we can do what we did last night every day,  
You you wanna come clean and run away,  
You tell your man I'll tell my girl today,  
Can we come clean and,  
Come clean and,  
Come clean this love is killing me  
This love is killing me,  
This love is killing me...
