

Jojo, Mad Love

You know, love is just one of those things you can't really explain
That's insane

Lay here with me in the dark
I know my edges are sharp
But sometimes the pain is what hurts you so good
You took a knife to my heart
And cut out the rational parts
I knew that you were just misunderstood

Cause you give me mad love
How far can we go? - nobody knows!
You give me bad love
But I'll take what I get, I'm starving for it
Like I've never had love
You keep me insane,
I'm not ashamed
Don't give a damn, love
I want you so bad
You give me...
Mad love, mad love, mad love, mad love

Twisted like wire in your arms
A dangerous place for my heart
But you know I love getting off on the thrill
Turn me from water to wine
I'm wasted all of the time
So do it, baby, go in for the kill

Cause you give me mad love
How far can we go? - nobody knows!
You give me bad love
But I'll take what I get, I'm starving for it
Like I've never had love
You keep me insane,
I'm not ashamed
Don't give a damn, love
I want you so bad
You give me...
Mad love, mad love, mad love, mad love
