

# Jon B., Anything For Your Love

From "Steel" Soundtrack

Written by Jon-John Robinson, Joey Elias, Darryl Hawes & Gloria Stewart

Oooh, oooh, oooh, ooooh, yeah, baby  
Time after time  
Like the wind you blow through my mind  
Life begins  
Dreaming about the love you gave to me

Girl I get excited  
When I think about it  
Me inside your love is where I want to be

I'll do anything for your love  
You've got to know that I just can't get enough  
I'll do anything for your love  
Love everything about you  
Do anything for your love

Smile on your face  
There's no one to take the place of you baby  
High as can be  
Knowing that it's me you choose to be with

Girl I get excited  
When I think about it  
Me inside your love is where I want to be

I'll do anything for your love  
You've got to know that I just can't get enough  
I'll do anything for your love  
Love everything about you  
Do anything for your love

(Feel my) Feel my arms around you  
(Hold me) Oh girl, you've got to know I'm glad I found you  
I'll never let you go  
There's no way around it  
Never, no never  
No, no, nooo

I just can't get enough

I'll do anything for your love  
You've got to know that I just can't get enough  
I'll do anything for your love  
Love everything about you  
Do anything for your love
