

Jon B, Bad Girl

I think about the clever lines
To spill to you baby
The time it's gonna take
For me and you to get out of here
Lead you to my ride and back to my house
So we can do what we want to do

[Bridge:]

All I want all that I need
For u to give me
Just one night to please you
Girl will you be
Girl you be the one
The one I want to leave tonight with baby
You can be my bad girl

[Chorus:]

Tell me what I have to do tonight
For you to be my bad girl baby
For you to be my bad girl baby
Tell me what I have to do tonight
For you to be my bad girl baby
For you to be my bad girl baby

Don't wanna preasure you
And make you to think I'm wrong baby
Just wanna turn you on to something
That you're lookin like
You will see exactly why you dressed up
Lookin like that for me baby
All flyed up for me

[Bridge:]

All I want all that I need
For u to give me
Just one night to please you
Girl will you be
Girl you be the one
The one I want to leave tonight with baby
You can be my bad girl

[Chorus:]

Tell me what I have to do tonight
For you to be my bad girl baby
For you to be my bad girl baby
Tell me what I have to do tonight
For you to be my bad girl baby
For you to be my bad girl baby
