

Jon B., Your Song

Featuring Shin Seung Hun

When I fall in love with a melody
I want to play it all night long
If I lie about what you mean to me
Then I couldn't sing your song - your song

I sing this song girl, just for you & I
Love saw the truth girl, kindness in your eyes

All of this time three years of love
Each day and night I feel in your touch
Sharing the warmth woman to man
Letting you understand...

When I fall in love with a melody
I want to play it all night long
If I lie about what you mean to me
Then I couldn't sing your song - your song

I hope this one girl, shows the truth to you
All in the notes girl inspired by what you do

All of this time three years of love
Each day and night I feel in your touch
Sharing the warmth woman to man
Letting you understand

When I fall in love with a melody
I want to play it all night long
If I lie about what you mean to me
Then I couldn't sing your song - your song
