

# Jon Bon Jovi, All About Loving You

Looking at the pages of my life  
Faded memories of me & you  
Mistakes I know Ive made a few  
I took some shots that fail from time to time baby  
You were there to pull me through  
Been around that block a time or two  
Im gonna lay it on the line  
Ask me how Ive come this far  
The answers written in my eyes  
Every time I look at you  
Baby I see something new  
It takes me higher than before  
It makes me want you more  
I dont want to sleep tonight  
Dreamings just a waste of time  
When I look at what my lifes been coming to  
Im all about loving you  
Ive lived Ive loved Ive lost Ive paid some dues  
And baby weve been to hell and back again  
Through it all youre always my best friend  
For all the words I didnt say  
and all the things I didnt do  
tonight Im gonna find a way  
Every time I look at you  
Baby I see something new  
It takes me higher than before  
It makes me want you more  
I dont want to sleep tonight  
Dreamings just a waste of time  
When I look at what my lifes been coming to  
Im all about loving you  
you can take this world away and everything I am  
Leave the lines upon my face  
All about loving you  
Im all about  
Im all about  
Im all about loving you  
Every time I look at you  
Baby I see something new  
It takes me higher than before  
It makes me want you more  
I dont want to sleep tonight  
Dreamings just a waste of time  
When I look at what my lifes been coming to  
Im all about loving you  
Im all about loving you
