

# Jon Bon Jovi, Social Disease

You can read it in the papers  
In some places it comes in thirty-two flavors  
But you wouldn't tell no one  
Your favorite if you could  
From the White House to the alleys  
From the President down to Long Tall Sally  
Can't live with it but you'll die without it  
Yes you would  
Senorita's in the kitchen  
She's a fistful of dynamite  
You call 911 but you can't stop the fun tonight, it's alright  
You can't start a fire without a spark  
But there's something that I guarantee  
You can't hide when infection starts  
Because love is a social disease  
Where you look you can find it  
Try to run but you're always behind it  
So you play hide and seek like a blind kid  
Till you're caught, yeah you're caught  
So you'll say that you had some  
But they took it and held it for ransom  
Were they tall, dark, skinny or handsome  
You won't talk  
So you telephone your doctor  
Just to see what pill to take  
You know there's no prescription  
Gonna wipe this one away  
You can't start a fire without a spark  
But there's something that I guarantee  
You can't hide when infection starts  
Because love is a social disease  
So full of high grade octane  
She could run the bullet train on 38 double d's  
Now you know for sure, you know the cure  
To make a blind man see
