

# Jon McLaughlin, We All Need Saving

Come on, come on  
You have got to move on  
This is not the you i know  
This isn't real  
It's just all you can feel  
And that's the way that feelings go  
And whether or not it's right or wrong you'll do what you will do  
[Chorus]

When the cloud in the sky starts to pour  
And your life is just a storm you're braving  
Don't tell yourself you can't lean on someone else  
Cause we all need saving sometimes  
Say what you will but the time that we fill  
While we're on the earth  
Should not be alone  
We were meant to be known  
You make me what i'm worth  
But i can't keep you from yourself you'll do what you will do  
[Chorus]

I don't know why it has to be this way and  
I don't know the cure  
But please believe someone has felt this before  
[Chorus]
