## Jonas Brothers, American Dragon Theme Song

He's cool, he's hot Like a frozen sun He's young and fast He's the chosen one People we're not bragging (hey hey) He's the American dragon

He's gonna stop his enemies With his dragon tail Dragon teeth, dragon tail Burning dragon fire A real live wire

American dragon (hey hey) American dragon He's the American dragon

His skills are getting faster With Grandpa, the master It's destiny What's up G It's showtime baby For the legacy

American dragon (hey hey) American dragon American dragon (hey hey) American dragon
