

# Jonas Brothers, Take A Breath

I walked across a crowded street  
a sea of eyes cut through me, and I saw you in the middle.  
your upset face, you wear it well,  
you camouflage the way you feel when everything's the matter  
we've all been down that road before,  
searching for that something more.

worlds are spinning round  
there's no time to slow it down,  
so won't you take a breath,  
just take a breath.  
people change and promises are broken.  
clouds can move and skies will be wide open.  
don't forget to take a breath.

blink our eyes, life's rearranged.  
to our surprise, it's still okay.  
it's the way things happen.  
summer comes and then it goes.  
hold on tight and brace for cold  
and it's only for a moment  
we've all been down that road before,  
searching for that something more

worlds are spinning round

there's no time to slow it down,  
so won't you take a breath,  
just take a breath.  
people change and promises are broken.  
clouds can move and skies will be wide open.  
don't forget to take a breath.

life isn't suffocating  
air isn't overrated

worlds are spinning round  
there's no time to slow it down,  
so won't you take a breath,  
just take a breath. (x2)

people change and promises are broken.  
clouds can move and skies will be wide open.  
don't forget to take a breath.

worlds are spinning round  
there's no time to slow it down,  
so won't you,  
don't forget to take a breath.

(don't forget to take a breath) (fade)
