

Jonezetta, Burn It Down!

Wake up!
Do you hear the sound of music from above?
Our city sits upon the glow of bomb.
The fire is thick, the flame is hot
Like it or not
Gonna burn this mother down!

Remember!
All the money that you burn will never pay
For you to scream for your life and run away
The fire is thick, the flame is hot.
Like it or not
Gonna burn this mother down!

Honey don't think that we're gonna be alright
'Cause it's coming and I swear it's out to take our lives
Gonna burn this mother down!

Honey don't think that we're gonna be alright
'Cause it's coming and I know it's gonna take our lives
Gonna burn this mother down!

We've gone to find our way home
Wherever that might be
