

Jonezetta, Popularity

They got the raddest hooks
They got the dopest looks
And when they're misunderstood it's even better
And they all agree
The future ends with me
On their computer screens
Like they even...
Matter to the words we sing
Or feel a part in our melodies
If all you have's yourselves
You're never gonna need anyone else

Popularity
Do you think it's scary?
Everybody's talking with their own opinion
Popularity
It's a lot to carry
I'll fall asleep to you screaming in my brain

Float into a room
I feel the attitude
When I'm all alone it's even better
Ty drops a line and
We all fall right in time
When you sing along
That's when we know you...
Matter to the words we sing
Or feel a part in our melodies
If all we have's ourselves,
You're never going to need anyone else

Popularity
Do you think it's scary?
Everybody's talking with their own opinion
Popularity
It's a lot to carry
I wake up to you screaming

Popularity
I keep on keeping but
Everyone's dying for their own opinion
Popularity
Yeah, I think it's scary
I'll fall asleep to you screaming at my brain
