

Jonsi, Heaven (Eurovision 2004)

I still miss you
And I'm lost
And it makes me feel blue
Without those colours of you
I can't think straight
I just wanna be
When your not here with me
Wherever you are
Those colours of you
Blend with my blue
Please help me
See it through, oh
This journey I must
Take alone
With my blue
So just blend your colours
I lay down and cry
And the rivers are dry
Oh, to unvail my heart
When you kiss me goodbye
And when you set sail
That's all I can say
Fair winds... All the way
So, farewell
Blend with my blue
Those colours of you
Please help me
Take alone
See it through, oh
So just blend your colours
This journey I must
With my blue
I can feel you reaching out
I got this feeling deep inside
I know I'll find my love tonight
It's in my head
It's in my heart
I know
Your love tonight
And I know
I know
You'll be by my side
With my blue You'll help me to see it through
Blend your colours
