

# Jordan Pruitt, Later

I've seen you around a lot before  
Always looking like a movie star  
Hanging out with all your friends  
In your Porsche Cayenne, for sure

All the girls think you're a dream  
And I know just what they mean  
In your aviator shades  
Always rockin' all your faves  
Oh yeah

Your life  
Boy you really got it made  
Your ride  
Yeah your Daddy's getting paid  
Your house  
And all that stuff you got  
Well you might think you're hot  
But what I wanna say

If that's what it's gonna take to be  
The kind of girl you need  
If that's what you're looking for from me  
What you want to see  
Nothing but material things  
I'll catch you later  
Do me a favor  
If that's the kind of vibe you wanna find  
And what's on your mind  
If all you want is someone you can buy  
I'm leaving you behind  
'Cause you don't care about the girl inside  
You're a player  
So see you later

You never wear the same thing twice  
I bet that smile cost quite a price  
I know you've never worked a day  
But you got it anyway

Your life  
Boy you really got it made  
Your ride  
Yeah your Daddy's getting paid  
Your house  
And all that stuff you got  
Well you might think you're hot  
But what I gotta say

If that's what it's gonna take to be  
The kind of girl you need  
If that's what you're looking for from me  
What you want to see

Nothing but material things  
I'll catch you later  
Do me a favor  
If that's the kind of vibe you wanna find  
And what's on your mind  
If all you want is someone you can buy  
I'm leaving you behind  
'Cause you don't care about the girl inside  
You're a player

So see you later

You're a player  
So see you later

So you think that I would spend my time  
With someone that plays like you  
That I would just fall for you  
I think you oughta know by now  
That's not enough for me  
You're wasting your time with me

I'm gonna make you understand  
That I'm not impressed with you  
Got better things to do  
I'm gonna put you in your place  
'Cause I think you need to know  
Boy that you gotta go

If that's what it's gonna take to be  
The kind of girl you need  
If that's what you're looking for from me  
What you want to see  
Nothing but material things  
I'll catch you later  
Do me a favor  
If that's the kind of vibe you wanna find  
And what's on your mind  
If all you want is someone you can buy  
I'm leaving you behind  
'Cause you don't care about the girl inside  
You're a player  
So see you later

If that's what it's gonna take to be  
With someone that plays like you  
If that's what you're looking for from me  
Like I would just fall for you  
That's not enough for me  
You're wasting you time with me

If that's that kind of vibe you wanna find  
Then I'm not impressed with you  
If all you want is someone you can buy....
