

# Jordan Pruitt, Waiting For You

Well I'm not the type  
To hand my heart over  
Thought I was stronger  
So I'm wondering why  
I can't shake this feeling  
Look what you're doing to me  
No I'm not the type  
To move in too quickly  
Whenever near me  
I just can't deny  
The way that I'm feeling  
I don't know what happens to me  
I get nervous  
I get breathless  
When you're here next to me and

Some people wait for a lifetime to feel like this baby  
They keep waiting  
So let's take a chance while it's here while we can  
We can make it  
But don't keep me waiting for you  
On you

Well it's Friday night  
I just tried to call you  
I wonder where you are  
Is everything alright  
I wanna be with you

I wish I could reach you  
I wish I could see you  
I know, I'm so anxious  
I don't wanna lose you  
We'll lose what we have cause

Some people wait for a lifetime to feel like this baby  
They keep waiting  
So let's take a chance while it's here while we can  
We can make it  
But don't keep me waiting for you

Some people wait thinking someday they'll find someone better  
But I'm not afraid of making mistakes  
So I'll take my chances

Some people wait for a lifetime to feel like this baby  
They keep waiting  
So let's take a chance while it's here  
We can make it  
So don't keep me waiting!

Some people wait for a lifetime to feel like this baby  
They keep waiting  
So let's take a chance while it's here while we can  
We can make it  
So don't keep me waiting for you  
No, for you.
