

Joseph Arthur, Chemical

Taking my medicine
Changing the way i am
I don't know where i been
But i was well behaved
I don't know who you are
Coming out of my scar
Driving my crashing car
That needs a coat of paint
Chemical
Up and up away i go
Out of my head
I'm putting myself in jail
I'm hoping to see you fail
I'm flipping my head and tail
Over
I don't know the way
Over
I'm throwing up what i drank
No one here i would thank
I feel like a shark that's caught
In a goldfish tank
Swallowing a thousand pills
Trying to change how i feel
There's just too much time to kill
Between all my mistakes
Chemical
Up and up away i go
Out of my head
